OBJECTIVE

To transition into a finance managerial role within the commercial sector by leveraging on extensive background in financial reporting gained as an audit manager with Big 4 firms.

SUMMARY

- Audit manager with 10 years of experience and specialise in financial services, oil and gas, construction and manufacturing industries.
- Experienced in SFRS, IFRS, MFRS as well as compliance and regulatory reporting for banks and Capital Markets Services license holders.
- Versatile professional who is hands-on and adept at leading audit teams to meet tight deadlines. Equally comfortable in a team or individual contributor role.

PROFESSIONAL EXPERIENCE

Deloitte Singapore - Audit Manager

December 2013 to December 2016

- Manage a portfolio of financial services clients and prioritise multiple deadlines by managing different audit teams and adopting a hands-on approach as required.
- Identify material risks and key internal controls relating to financial statement audits and design appropriate audit procedures to address each risk.
- Review financial statements of the client to ensure compliance with relevant accounting standards (SFRS/IFRS).
- Review the compliance of the client with regulatory requirements of the Monetary Authority of Singapore for banks and Capital Markets Services Licence holders.
- Analyse the financial performance of the client and identify reasons for significant variances.
- Liaise with client senior management to communicate and resolve any significant issues identified.
- Review the work of audit teams and coach junior staffs on the technical aspects of the job.
- Key clients:
 - Banks : Bank of Baroda, Asean Finance Corporation and MUFJ Securities Asia
 - Interdealer brokers : Tullett Prebon (Singapore) and PVM Oil Associates
 - Private equity : Standard Chartered IL&FS Asia Infrastructure Growth Fund Company
 - Trust company : SG Trust (Asia)

KPMG (Malaysia) - Audit Manager

January 2013 to November 2013

- Manage a portfolio of clients from various industries like manufacturing, oil and gas, construction and property development, FMCG and software development.
- Identify material risks and key internal controls relating to financial statement audits and design appropriate audit procedures to address each risk.
- Present audit procedures and findings to the audit committee of the client listed on Bursa Malaysia.
- Analyse the financial performance of the client and identify reasons for significant variances.
