QUALIFICATIONS

Electronic trading professional with over 10 years of product management and client sales experience in cash equities and derivatives specializing in execution management systems, portfolio management systems, algorithms, dark pool, market microstructure, and trading analytics for global institutions, brokers, and hedge funds

EXPERIENCE

ITG – Hong Kong

September 2015 – Present

Vice President, Electronic Trading Platforms, Client Services

- Develop and strengthen relationship with institutional and hedge fund clients
- Identify business opportunities across Asia Pacific electronic trading market by providing first-class solutions in electronic execution management system and hedge fund platform
- Present product updates and provide ongoing consulting services to clients
- Deliver sales presentation to prospective clients, business partners, and sell-side brokers
- Provide client feedback and market intelligence to internal product team

ITG – Hong Kong

July 2010 – September 2015

Vice President, Product Manager, Asia Pacific Regional Head for Triton (ITG's Flagship Broker Neutral Execution Management System)

- Engaged in customer research, requirements gathering, roadmap planning, data analysis, enhancement design, product launch, and presentation to internal traders and external clients
- Managed end-to-end product release of new platform version updates through collaborating with stakeholders from Sales, Trading, Marketing, and Operation Support
- Collaborated with software engineering, trading, and sales teams across Hong Kong, Singapore, Bangalore, Melbourne, Boston, New York, Los Angeles, Toronto, and Tel Aviv on global projects
- Specialized in industry-leading product development methodologies and technologies including Agile, .NET, C#, Messaging, Database, and Versioning Control
- Achieved excellent track record in delivering multiple large-scale and complex trading solutions
 - **Multi-Asset Platform** – Revamped the execution management system from an equity-only platform to a multi-asset platform with futures and options trading capability
 - **Dark Pool and Crossing** – Designed and developed the cross reporting system for dark pool from scratch by abstracting the market microstructure specifics from upstream systems and desk traders
 - **Hedge Fund Platform** – Served as the regional product expert and collaborated with the global development team in deploying a fully automated front-to-back hedge fund platform for portfolio and order management, compliance checks, real-time NAV calculation, and post-trade reconciliation with prime brokers and external fund administration
